ABSTRACT: This template illustrates the format that must be used in the preparation of full papers for the XVII European Conference on Soil Mechanics and Geotechnical Engineering. Papers are to be submitted in English or French based on the original abstract submitted. All manuscripts must be prepared electronically and submitted in accordance with the following instructions using the online submission feature provided on the conference web site. Lorem ipsum dolor sit amet, ne meis aeterno necessitatibus mei, te eum quando cetero nostrum, per justo utroque omittam eu. RÉSUMÉ: Résumé en Français, Ce modèle illustre le format à utiliser pour la préparation de documents complets pour la XVII Conférence européenne sur la mécanique des sols et l'ingénierie géotechnique. Les articles doivent être soumis en anglais ou en français sur la base du résumé original soumis. Tous les manuscrits doivent être préparés électroniquement et soumis conformément aux instructions suivantes en utilisant la fonction de soumission en ligne fournie sur le site Web de la conférence. Voyons ce que beaucoup de cela dans mes besoins de toute éternité, vous lui quand le reste de la nôtre, à travers les justes, à la fois parler de football. Maintenant, je suis d'accord avec ceux-ci, nous utilisons certains très deux, est lié à modérée, cependant.

Keywords: Keywords should use Times New Roman 10 pt. font; separated by semicolon; Maximum 5

1 GUIDELINES

Please read this text before you start preparing your paper for the proceedings of the ECSMGE-2019. The purpose of this guideline is not only to clarify a few points but also to stress that it is imperative that everyone complies exactly with the instructions and use the official format which will be available on the conference website in order for the proceedings to be of the highest quality and to be published on time.

Some printers may print the file single-sided or may not print due to the custom paper size. This is a function of Word and saving the file as a PDF before printing will resolve most issues. Please **do not** change the page size or format of the submitted document: make a temporary copy if you need to change the paper size for printing.

2 PUBLICATION AND SUBMISSION

Submission of full papers will be due October 30th, 2018. Paper submissions must be an electronic copy of a Microsoft Word Document, submitted contribution should include the MS-doc or docx as well as the PDF file of the paper.

The proceedings will be published in digital format only. Submitted papers shall not be longer than **8 pages** and maximum size **8 Mb**.

The full-length of standard papers will be published in digital format only. Papers will be published in free and open access in the **ISSMGE Online Library** and indexed with their own individual **DOI** number. Papers will also be online at conference website.

2.1 Language

The paper may be written in either English or in French. The title of the paper should be given in both English and in French, with the title in the language of the paper appearing first.

The abstract of the paper should be given in both English and French, with the abstract in the language of the paper appearing first.

The paper will be expected to be a complete treatment and presentation, with all the usual elements of a self-contained scientific or technical paper. It should comply in structure and layout with the instructions given below.

2.2 Material

Contributions are accepted on the understanding that the paper is original and has not been published before.

2.3 File name

aaaa-ecsmge-2019_xxxxx.docx/.doc
aaaa-ecsmge-2019_xxxxx.pdf

were following is:

aaaa the abstract number
xxx the main/ presenting authors last name

example: 0524-ecsmge-2019_Lastname.docx
0524-ecsmge-2019_Lastname.pdf

3 TEXT FORMAT

Please note that the layout of all sections that appear after the abstract have to be double-column. This means that only the double column layout is acceptable for publication. The two columns of text on the last page of each paper must be balanced (that is, adjusted to have the same vertical extent; use the column break to achieve this).

3.1.1 Type area and page size

Do not amend the margin settings or page dimension within the template. These are as follows:

246 x 189 mm page size:

Top	2.8 cm
Bottom	2.0 cm
Left	1.6 cm
Right	1.5 cm

3.2 Structure

Please adhere to the following order of presentation: Title, Author(s), Affiliation(s), Abstract, Main text, Conclusion, Acknowledgement, References.

The **title** should be written as a sentence, so **NO capital** letters where they would not usually appear. And no full stop (“.”) at the end of the title.

For example: Remote sensing for monitoring the changing landscapes (**Not:** Remote Sensing for Monitoring the Changing Landscapes.)

3.2.1 Author(s)

Author should start with the Initial(s) and then the Family name,. For example: I. Newton, J. Lewis & M.E. Jansen

3.2.2 Titles

Titles or occupation (such as Prof., dr., eng. PhD etc) are NOT permitted, only in the main text titles will be allowed.

3.2.3 Corresponding author(s)

The name, title, postal address, telephone number and e-mail address of the corresponding author should be given via the online submission system.

3.2.4 Abstract

The abstract should be readily understandable to most readers and may contain up to 250 words. Use the full typewidth of the page (single column).

3.3 Text

The text should be in 11 pt Times New Roman for the body of the text. The indent must be 0.5 cm. The text for reference section is in 10 pt Times New Roman. Symbols should be in italics and SI (international system) units must be used throughout the whole text.

For the text, a maximum of three levels of sections and subsections is allowed.

Eg. 1. Introduction

1.1 Europe

1.1.1 History

1.1.2 Future

1.2 Asia

1.1.1 History

1.1.2 Future

3.4 Headings

Headings 1 and 2 should be in 12 pt Times New Roman, italics, only capital letters for heading level 1.

It is important to reproduce the spacing of the text and headings as shown here. Text should be single spaced.

3.5 Figures and tables

Figures are allowed to fill either one or two columns, and must be accompanied by a caption below. Colour figures are accepted.

The caption should be in 10 pt Times New Roman, italics. The figure and corresponding caption must be placed in a text box if the figure exceeds one column.

The resolution of the figures must be at least 300 dpi, and the applied text should be in 9 pt.

Figure 2. Sample

Tables follow the instructions for figures, with the addition that the headers should be in bold.

Table 1. Sample (use 10 pt both in heading and table)

Heading	Sub 1.1	Sub 1.2
Sub 2.1	1	4
Sub 2.1	2	5
Sub 2.1	3	5

The reference to figures and tables should be referred to as Figure 1 and Table 1, respectively. Figures and tables should be numbered consecutively.

3.6 Equations

Samples of equations are given below and each equation should be numbered consecutively, refer to equations by these numbers.

Use the equation editor of the selected word processing program and the text 11 pt. The layout should be standard "professional" in WORD.

All symbols should be in italics. Indent is 0.5 cm for equations and an empty line must be placed above and below equations.

The used parameters must be described below equations, and unit should be given in parentheses.

$$e^z = q' \cdot K_q^z + c \cdot K_c^z \quad (1)$$

$$K_q^z = \frac{K_q^0 + K_q^\infty \cdot \alpha_q \cdot \frac{z}{B}}{1 + \alpha_q \cdot \frac{z}{B}} \quad (2)$$

$$\alpha_q = \frac{K_q^0}{K_q^\infty - K_q^0} \cdot \frac{K_0 \cdot \sin \varphi}{\sin(45 + 0,5 \cdot \varphi)} \quad (3)$$

Where e^z (kPa) is earth pressure at depth z (m), etc.

Figur 3 Figures, tables and graphs are allowed to fill either one or two columns,

3.7 References

References to the literature should be mentioned in the main text by stating the surname of the cited author followed by year of publication, all contained in rounded brackets

4 CONCLUSIONS

Conclusions should state concisely the most important propositions of the paper as well as the author's views of the practical implications of the results.

5 ACKNOWLEDGEMENTS
