

# TC202 Workshop on “NDT Technologies and Innovations in Transportation Geotechnics”

## XVII ECSMGE-2019, Reykjavik, Iceland

Sunday, September 1, 2019

Venue: Harpa Concert Hall and Conference Center

### Call for Participation

Technical Committee **TC202 Transportation Geotechnics** of ISSMGE will be organizing a Workshop on **NDT Technologies and Innovations in Transportation Geotechnics** to be held at the XVII European Conference on Soil Mechanics and Geotechnical Engineering (ECSMGE) in September 2019.

Members of TC202 and affiliates are invited to contribute presentations (approx. 15 minutes) on topics relating to **NDT Technologies and Innovations in Transportation Geotechnics** that fall within the overall Conference Theme of “**Geotechnical Engineering, foundation of the future.**” There are a number of themes identified for the conference.

- Theme A: Modelling and experimental assessment of geomaterials
- Theme B: Geotechnical construction and soil improvement
- Theme C: Geohazards, earthquakes and mitigation
- Theme D: Environment, water and energy
- Theme E: Historical heritage preservation
- Theme F: Special and specific Issues

If you are interested in participating please send a title for your presentation and a 200 word summary on what it would entail to the TC202 Secretary Dr. Tatsuya Ishikawa by Friday, March 1, 2019:

Dr. Tatsuya Ishikawa

Secretary, TC202, the Technical Committee on **Transportation Geotechnics** within ISSMGE  
Laboratory of Analytical Geomechanics
